Duration : about one minute. **Level** : A2

Exemple de production orale attendue :

Hi Mum! The ESB is such a wonderful place! It is an Art Deco skyscraper on 350 Fifth Avenue in Manhattan. The building is 1,250 feet high and there are 102 storeys. What an incredible view! The pinnacle at the top is so high!
How amazing is this building! There are 6,500 windows and at night you can enjoy beautiful lights at the top. Every year, you can participate to the 'run-up' race. Great, isn't it?
Talk to you later!

TASK 2 – EOC : Record a message on your mum's voicemail to tell her about the two skyscrapers you visited. Which one do you prefer?

Duration : about one minute. **Level** : A2

Exemple de production attendue :

Hello Mum! The Chrysler Building is an Art Deco skyscraper too and it is located on 405 Lexington Avenue. Everything is so luxurious inside and there are 32 elevators!
Which one do I prefer? It is such a different building! The Chrysler Building is a bit older than the ESB and the ESB is higher than the CB. The gargoyles are more artistic at the Chrysler Building. It is difficult to choose a favourite one but the view is better at the ESB!
Bye for now !

TASK 3 - EOC : Record a message on your mum's voicemail to tell her about your last visit at One WTC. It is such a different building!

Duration : about one minute. **Level :** A2

Exemple de production attendue :

The OWTC is a modern skyscraper and it is so high! It is 1,776 feet high because it is a reference to the Declaration of Independence. How different it is! It is greener than the ESB and it is more recent than the CB. You can enjoy an incredible view from the observation deck. I think the view is better than the one at the CB. There are 104 storeys and 32 elevators. What an amazing place it is! See you!

TASK 4 – EOC : Flatiron, Woolworth or Comcast building ? Send a voicemail to your mum to make suggestions about your next visit.

Exemple de production attendue :

It's me again! So we need to choose our last visit! Flatiron Building is a Renaissance skyscraper and there are only 22 storeys. Its name is a reference to a clothes iron and it is 307 feet high. What about visiting the Flatiron Building's hall?
Woolworth Building is of neo-gothic style and it is located on 233 Broadway in Manhattan. Why not take a picture of the gargoyles at the top? We could discover the secret basement pool.
Comcast Building is the best panoramic city view. Would you like to go 70 floors above the city? Let's take a picture of the breathtaking 360-degree view of Top of the Rock!
Which one do you choose?
