Smoke-free New Zealand - Homework – Correction

Listen to the video to try and identify these actors -you may have to guess a little. Then listen again to understand their opinion.

	Who is this?	Note down what they are saying.	Do they agree with the measure?
	A parent	Yeah that's good to stop the young people (from smoking)	She agrees with the measure.
	A parent	Everything illegal is always being accessed by people somehow, somewhere	She seems to disagree with the measure
	Ayesha Verall, Associate Health Minister	We're doing this to save the life of 45 000 New Zealanders who die from smoking each year. We'll take care to make sure that they're distributed across the country and that people in rural communities aren't unnecessarily disadvantaged	She agrees with the measure.
	A small cigarette retailer	Once the law comes we might have to close the doors	She probably disagrees with the measure;
	A member(?) of the Convenience Store Association	From an economic point of view it could be as much as 30 to 40% of the gross profit would disappear at current smoking rates but even on future smoking rates. It would ultimately cost jobs	He disagrees with the measure.

	<p>The "Ash" Chairman (probably an association that fights cigarettes)</p>	<p>We're no longer punishing smokers, we're no longer stigmatising them, this plan will help them, it's very humane.</p>	<p>He agrees with the measure.</p>
	<p>Shane Reti, a member of the National Party responsible for Health</p>	<p>Where is the support for smoking reduction mechanisms, where is the role of primary care. We can all put up barriers, how do we help people to get out of those barriers.</p>	<p>He disagrees with the measure.</p>
