

## **SCENARIO:**

Mr Pitt was finally found in Italy. Yesterday he was taken to the police station and questioned there. They have no recording of the deposition and offer to report to you Mr Pitt's statements.

Unfortunately, the three Italian policemen are compulsive liars... Only one of them is telling you the truth to each question. Can you spot the liars?

### **What you have to do:**

- **If you are an English policeman:**
  - prepare questions (don't write anything)
  - for each question you ask, listen to the three policemen
  - vote for the one who is telling you the truth
  
- **If you are an Italian policeman:**
  - Answer the questions by using the key words
  - if you don't have any keywords, prepare to make up (= invent) a story! (write key words)
  - Gain points when you convince the English policemen that you are telling the truth!
